

WEEKLY UPDATE

January 6, 2021

Dear Residents and Families/Representatives,

Please accept this letter as our weekly update regarding the status of COVID-19 in our facility. Since the onset of this virus, we have had 0 residents and 13 staff members test positive for COVID-19. All residents were tested this week, all negative.

As you have probably heard, the CDC recently announced that healthcare workers and long-term care residents should be among the first group of people to receive the vaccine for COVID-19. We are optimistic this will help stop the spread of this virus in our community. Consents for the vaccines are currently available and our clinic date to receive the vaccine is scheduled for January 11, 2021. In the meantime, please continue to do your part in limiting the transmission of COVID-19 by wearing masks, washing your hands and keeping a safe distance from others.

We are also working hard to keep everyone in our community safe and we will continue to practice the enhanced safety precautions that are known to prevent the spread of COVID-19, such as only essential personnel are allowed inside the facility and we screen them for signs and symptoms of illness prior to entering. Our residents are continually monitored and staff is using PPE as recommended by the CDC. Staff is frequently reminded and encouraged to practice social distancing and to use hand sanitizer and frequently wash their hands when they are in the facility and out in the community. We ask them not to report to work if they have symptoms of illness.

Please continue to check our website for weekly updates as well as notification of new cases. As always, we will notify you if we receive confirmation of a new positive case in our facility and we will reach out to you individually if your loved one is displaying symptoms of COVID-19 or tests positive for COVID-19.

If you have any questions or concerns please contact us directly at Devlin Manor, 301-724-1400

Sincerely,
