

## COVID NOTIFICATION/UPDATE August 5, 2020

To Our Valued Residents, Families and Representatives:

We recently received confirmation that a resident tested positive in our facility for COVID19. After receiving this result, we immediately retested this individual twice over the next 48 hours and both results were negative for COVID-19. Additionally, we rescreened all employees and residents for signs or symptoms of COVID-19 related illnesses.

We will continue increased screenings of residents three times per day and staff will be screened upon entering and exiting the building. We will also be performing additional testing of all residents and staff weekly and will update you with the results. We have conducted a deep cleaning of the facility, including all high contact areas. We have been in contact with the health department and are working closely with them to prevent further spread of the virus in our facility.

While we are disappointed that we have a resident with COVID after we have worked so hard to prevent the spread of this virus in our facility, we know that we are dealing with an extremely contagious virus. Rather than be discouraged by this, we are going to focus our efforts on taking all necessary steps to protect our residents and staff.

We are committed to eliminating this virus from our facility and we will continue to implement and practice enhanced safety precautions recommended by our federal, state and local health officials, such as, only allowing essential personnel inside the facility, performing regular screenings for signs and symptoms of illness prior to entering the building, continually monitoring residents, performing regular deep cleanings, using PPE as recommended by the CDC, providing individual activities as opposed to group activities, implementing isolation protocols as required, and reminding and encouraging staff to practice social distancing and to use hand sanitizer and frequently wash their hands when they are in the facility and out in the community.

As a reminder, we will post updates on our facility website at [www.devlinmanor.org](http://www.devlinmanor.org) and we will individually notify representatives/families regarding a resident's condition if he/she tests positive for COVID-19 or is displaying symptoms of COVID-19. If you have any questions or concerns please contact us directly at 301-724-1400

Sincerely,
